

PRESS RELEASE

EnCon United Announces Corporate Management Team Growth

Denver, Colo. (March 28, 2014) - EnCon United, the parent company of several leading architectural and structural precast prestressed concrete companies located across the United States, is pleased to announce the recent growth of its corporate management team.

Robert S. McCormack has recently joined EnCon Companies as Executive Vice President. As Executive Vice President, McCormack's responsibilities include providing strategic leadership to ensure the highest level of customer and business development is delivered across all companies. Additionally, McCormack is responsible for new business growth, corporate development, and business process improvement. McCormack comes to EnCon United with over 25 years of experience in the construction industry. Most recently, McCormack was the President and COO of a cutting edge technology company, where he was responsible for strategic and operational leadership and financial efficiency.

For many years, McCormack has been actively involved within the precast/prestressed concrete community. He previously served on boards for the Precast/Prestressed Concrete Institute (PCI), and the Precast/Prestressed Institute Foundation.

EnCon United is also pleased to announce the promotion of Jason P. Lien, P.E., FPCI, to Executive Vice President. In his new position, Jason oversees the planning, budgeting and scheduling for all EnCon marketing, as well as an active role at EnCon Design, LLC. He is also responsible for moving EnCon into a more collaborative design build firm, and to broaden the scope of service for concrete restoration and repairs, tilt-up wall panels, and parking structure general contracting.

Lien has held positions in engineering, management, software design, drafting and executive operations. He is a licensed Professional Engineer and an active member of the Precast/Prestressed Concrete Institute.

About the EnCon Companies

The EnCon Companies are specialty contractors providing design assistance and engineered precast/prestressed concrete systems and services to all facets of the construction marketplace. As a full service precaster, EnCon designs, manufactures, and installs a wide range of high quality architectural and structural building components. Recognized as one of the leading precast companies in the United States, EnCon is pioneering the use of the latest technology for the design and fabrication of the precast structures. EnCon United is the parent company of Stresscon Corporation, EnCon Colorado, Atlanta Structural Concrete, EnCon Design, EnCon Washington, EnCon Northwest, EnCon Utah, EnCon Renew and EnCon Field Services. EnCon currently sells its products in over 20 states. For more information, visit www.EnConUnited.com.
